

### **Public (non-secure) FTP Information**

For non-secure file transfer needs, you can access a public folder on our FTP site using the following credentials:

Host: sftp.cgx.com  
Username: psppublic  
Password: FTPL0g!n (case sensitive)  
Port: 22

### **Secure FTP Information**

In order to provide secure transfers of your artwork and data, we encourage you to contact your account manager or e-mail us at [info@printpsp.com](mailto:info@printpsp.com) to request personal credentials to a secure portion of our FTP site.

When doing so, please make sure you provide your full name, company name, email address and contact information so that we can complete your request and provide you with a temporary login. Please allow 1-2 business days for your account to be created.

### **InSite Remote File Submission and Proofing**

If you have recurring file submission needs and review your proofs on screen, then we encourage you to contact your account manager to learn more about our remote file submission and proofing site - [insite.printpsp.com](http://insite.printpsp.com). It allows you to upload your print ready PDF's, immediately review online proofs, and approve your project immediately - saving you time.
